

April 23rd 2020

Dear Patients,

We're sure every small business owner is listening closely to our governor and those in authority to determine when we can safely re-open. As of now, our new goal is JUNE 1st. Of course, this is an evolving situation so this date may change again. We appreciate all of your patience during this difficult time.

In the meantime we have been investing in new technology, new protective equipment, and new methods that we are super excited to share with you. We promise we'll do everything in our power to keep our patients and our team safe when our doors open.

On March 23, 2020, Governor Murphy issued Executive Order No. 109, which suspended all "elective" surgeries performed on adults, whether medical or dental, and all "elective" invasive procedures performed on adults, whether medical or dental, effective March 27, 2020, at 5:00 p.m. An "elective" surgery or invasive procedure, for purposes of this Order, is defined as any surgery or invasive procedure that can be delayed without undue risk to the current or future health of the patient as determined by the patient's treating physician or dentist.

Executive Order No. 109 remains in effect until further notice. Therefore, dentists are not permitted to resume "elective" surgeries and invasive procedures for adult patients until further notice, notwithstanding the reference to April 20 in the Board's Advisory.

This DOES NOT apply to emergencies. If you are in pain or concerned, we urge you to please reach out via phone, email, Facebook messenger or schedule a video consultation through our website. Together, we will determine the best course of action.

Stay safe. We will continue to post updates on Facebook. THANK YOU to everyone who reached out with prayers, words of encouragement, and acts of kindness during this challenging time. We're all in this together.

Your dental family at Mullica Hill Family Dental
